Re: MOU between APF and The City of Brookings, and projects in the park for the upcoming budget year 2019-2020.

In reviewing the MOU that APF has with the city, several items in the MOU have not been followed for years. There are two items that APF is asking the City to honor per the MOU.

- 1) City Obligations: 2.01. Provide and maintain all irrigation systems and water service in Azalea Park and with the Formal Gardens.
- 2) City Obligations: 2.05. Provide new plants, fertilizer, mulch, sprays and collection bags.

In a meeting recently with Jay Trost, Tony Baron and Azalea Park Foundation members, Teresa Lawson, Dave Paoli and Susan Shampo; the following items were discussed. Tony Baron stated that years ago APF had said they wanted control of the irrigation in the Formal Gardens. Irrigation systems are complex and it is not practical or reasonable that volunteers manage such a system, when city staff has the expertise in this area and manages the irrigation for the rest of the park. In the next month or two, Jay Trost will meet with APF in the park to review what is and isn't working. The City will repair/replace the irrigation systems in the Formal Garden in a timely manner, and if needed cost to do this will be included in the 2019-2020 budget.

The second MOU item above providing plants/supplies also has not been followed for years. APF manages and maintains the Formal Gardens for the City. APF spent over \$15,000 in the last year for plants, supplies and landscapers. APF is asking that going forward the City pays a set amount per year of the plant and supply cost per our MOU. In our meeting it was suggested that \$3,000 would be a reasonable amount, considering the amount of area that APF manages. This is the same amount the City provides The Garden Club for the areas that they maintain. There was discussion about a flat amount verses actual expenses. The flat amount was agreed to because it would be easier to administrate for the City and APF. Any additional cost for plants/supplies for the Formal Gardens will be paid by APF.

New sod was also discussed for two areas around the old concrete fountain, close to KidTown. These areas have been mostly dead grass for several years now. Per Tony Baron new sod for this area will be part of the 2019-2020 budget for the park, with planting no later than the fall of 2019.

The final item was Replacing Park Benches: Both sides agreed the current blue benches should be replaced as soon as possible. The wood is old and very warped. Tony said there was an extra bench the city has and it could replace one bench soon. Tony also said there is a family exploring the idea of purchasing a memorial bench and he suggested the garden. APF is

considering the purchase one new bench for the existing names from the old benches. The cost of the new benches is 4 to 6 times more than the old blue benches that were purchased by families, which would justify combining the names onto one bench, while still honoring the memorials. It was also discussed that the city might be able to pre purchase a bench or two and then when a family wanted a memorial the plaque would be added, reimbursing the city for the cost. If the City could do this, it would allow for most of the benches to be replaced in the next year. The discussion consensus was to work together to update the benches as soon as fiscally possible.

The Azalea Park Foundation Board is available to discuss any of the above projects with City Staff or Parks and Recreation Committee members.

Recommended Motion: Recommend budget committee consider funding recreation programs in the 2019 fiscal year
